This game includes two levels of difficulty. Choose which level best suits each player's ability.

Incisor

*Canine
(Cuspid)*

*Pre-Molar
(Bicuspid)*

Molar

Wisdom

Tooth Path - Level 1

Learn the different types of teeth.

Object of the game:

Travel through the mouth, tooth-by-tooth, by naming each tooth on which the spinner lands. The first player swallowed by the giant mouth wins.

Set-up:

Each player chooses a game pawn (floss, toothpaste, toothbrush, or mouthwash) and starts on the first incisor on the board. Use the spinner for level 1.

1. The youngest player starts the game by twirling the tooth spinner and naming the tooth on which the arrow lands.

2. The player then moves to the next tooth on the board that matches the tooth spun. The mouth diagram in the box can be used to help determine where to move.
3. If the spinner lands on a tooth that moves the player backwards, that player's turn is over. It is now the next player's turn.
4. Follow the directions on the board for Mouth Wash Falls and Floss More Point.
5. The first player to reach the last incisor on the game board wins. Slide down the tongue to be swallowed by the giant mouth.

Note: The mouth diagram, on the inside of the box, may be used when naming the teeth and determining where to move.

Variation for longer game play: If the spinner lands on a tooth the player has already passed, the player must move backwards to the closest tooth that matches the tooth spun.

Tooth Quiz – Level 2

Object of the game:

Travel around the mouth tooth-by-tooth, by answering dental health questions. The first player swallowed by the giant mouth to wins.

Set-up:

Each player chooses a game pawn (floss, toothpaste, toothbrush, or mouthwash) and starts on the first incisor on the board. Place the pearly whites and dental checkup cards in separate piles in the middle of the mouth for all players to reach.

How to Play:

1. The youngest player starts the game by drawing a card from the pile and passing it to the player on the left without looking at it.
2. The player on the left reads the question aloud to the player who drew the card. Return cards to the bottom of the pile.
3. If the question is answered correctly, the player takes a dental checkup card and follows the directions. If the question is answered incorrectly, that player's turn is over and the next player's turn begins.
4. Follow the directions on the board for Mouth Wash Falls and Floss More Point.
5. The first player to reach the last incisor on the game board wins. Slide down the tongue to be swallowed by the giant mouth.
